REZULTATI

Rezultati

16 študentov je zaključilo program in so bili zelo zadovoljni z vsebino in načinom dela.

Večina študentov: aktivni tudi v drugih študentskih združenjih in so že imeli izkušnje dela na projektih (študentskih, nekateri pa tudi že v podjetjih)

NEKAJ IZJAV

Nejc Jager, študent Informatike: Po vseh predavanjih sem veliko bolj začel razumeti, **kako pomembna je predhodna organizacija dela, ko se lotiš nekega velikega projekta.** Naučil sem se tudi veliko o poteku projektnega dela, o vodenju projektov, najbolj pa sem se navdušil nad agilnim pristopom, ki se mi zdi zelo učinkovit. Predvsem pa sem zelo hvaležen za vso znanje, ki mi bo prav prišlo, ko bom delal v podjetju oziroma vodil podjetje, "soft skills" so mi bili najljubša tematika.

Aljaž Mesec, študent Strojništva: Na Ready4FuturePM sem se med drugim naučil da je **v katerikoli projekt vključenih več deležnikov**, ki jih lahko razporedimo v matriko 4x4 glede na interes ki ga imajo do projekta in moč ki jo imajo v projektu. Naučil sem se tudi da **lahko vsak projekt predstavimo z WBS strukturo ki nam izjemno poenostavi razporejanje delovnih nalog.** Svoje izkušnje sem uporabil na konkretnem projektu
Link: <https://www.youtube.com/watch?v=mmkyE546Wjo>

Rezultati

1 študent je do sedaj uspešno opravil certificiranje, Certified Associate in Project Management (CAPM)[®]

Jaka Dernovšek, študent Farmacije: Zelo sem vesel, da sem se lahko tečaja udeležil in spoznal osnove projektne delo in projektne vodenja. Skozi tečaj sem odkril, da pogosto organizacijo projektov jemljemo precej preveč površno in se ji ne posvečamo v dovoljšni meri, kar lahko vodi v slabše rezultate projektov. **Znanje o posameznih segmentih projektov in njihovi vlogi bom lahko s pridom izkoristil za boljše razumevanje delovanja organizaciji v svoji panogi** poleg tega pa upam, da bom kmalu dobil priložnost, da se tudi sam preizkusim v kakšni tovrstni vlogi na delovnem mestu.

Filip Matko Sotošek, študent Ekonomije: Zelo sem vesel, da sem se udeležil izobraževanja o project managementu. Celoten potek in izvedba od 1 modula pa do zadnjega mi je bila res zanimiva. Kaj sem se naučil? Lahko rečem, da sem se naučil **generalnega razmišljanja kako se morajo začeti projekti, kaj so tiste ključne stvari na katere je potrebno biti pozren in kako zelo pomembno je razumeti in znati delati z ljudmi.** V specifikah vsakega modula ne bi zahajal, ampak od vsakega lahko rečem, da sem odnesel nekaj kar mi bo koristilo dalje v življenju.

Rezultati

1 študent je postal naš član in izkazal interes, da se vključi v soorganizacijo podobnega projekta v prihodnosti

Karmen Jeseničnik, študentka Agronomije: Spoznala sem izrazoslovje projektnega vodenja, izdelavo načrta projekta, ki smo ga poskusili skupinsko izdelati v modulu 2 in se mi zdi zelo dobro orodje, ki sem ga sama uporabila za boljšo razdelavo že obstoječega projekta pri katerem sodelujem. Naučila sem se, da ima **kakovost komunikacije med akterji pogosto odločilni vpliv na izid projekta, in da je projektni vodja tista ključna povezava med ekipo, sponzorjem in stranko/naročnikom na projektu.** Preko strokovnjakov iz industrije in njihovih izkušenj sem pridobila boljše razumevanje projektnega vodenja in vloge projektnega vodje, kar mi bo pomagalo pri učinkovitejšem sodelovanju na projektih, ter me pripravilo na uspešnejše upravljanje projektov v prihodnje.

Rezultati

Zaključki projekta 2022/23:

- Dosegli smo zastavljene cilje
- Preizkusili smo nov program (temelj praksa in ne teorija) ter od študentov ob koncu pridobili še nekaj predlogov za izboljšanje
- Le polovica študentov se je lahko udeležila vseh modulov (zaradi študijskih obveznosti, čeprav je bil urnik objavljen že ob prijavi)
- Program je zato morda bolj primeren za mlade zaposlene, ki začenjajo delati na projektih oz. so že na določenih projektnih funkcijah
- Velika zahvala vsem sodelujočim članom, da samo naredili nekaj novega in prispevali k izobraževanju mladih, ki bodo v prihodnosti vodili številne projekte
